ALLOWANCE

Specification

1. The Examiner's previous objection to the specification under 35 U.S.C. 132(a) is withdrawn in light of Applicant's amendments thereto dated 9/21/2010.

Allowable Subject Matter

2. Claims 3, 5, 11 and 14-19 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The closest prior art (Gabriel et al. ('359), Han ('603), Tzeng et al. ('294), Lee et al. ('203), Brown et al. ('269), Morihara (JP11-204506) and Liau et al. ('850)) fail to disclose (by themselves or in combination) the non-doped polysilicon dummy gate arrangement in combination with the etched area of the non-doped polysilicon region being larger than the sum of the etched area of the first region of the polysilicon layer and the etched area of the second region of the polysilicon layer, further in combination with the end point detection of one of the stages of the etching process being based on the etching of the non-doped polysilicon dummy gate arrangement in combination with the additionally claimed features, as are claimed by the Applicant. Thus, the Applicant's claims are determined to be novel and non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
